

IN THE CLAIMS

1. (Currently Amended) A presentation material publishing system comprising:

a presenter;

a reader; ~~and~~

a presentation material publishing server which can be accessed by said presenter and
said reader via a network; and

membership registration means for enabling the presenter and the reader to register for
authorized access to said presentation material publishing server and for authenticating the
authority for the presenter and the reader,

wherein said presentation material publishing server can store presentation materials
uploaded from said presenter via said network in such a manner as to be associated with public
information, and has the right to permit the browsing of said presentation materials by said
reader which has accessed them via said network,

said presenter can register predetermined public information in said presentation material
publishing server via said network and can upload said presentation materials in such a manner
as to be associated with said public information, and

said reader can browse the presentation materials permitted by said presentation material
publishing server via said network.

2. (Original) A presentation material publishing system according to Claim 1,
wherein, in said presentation material publishing server, the uploading of said presentation
information by said presenter is not permitted until the public information is registered from said
presenter.

3. (Original) A presentation material publishing system according to Claim 1, wherein, in said presentation material publishing server, the uploading of said presentation information by said presenter is not permitted until the user registration of a presenter user is performed from said presenter.

4. (Original) A presentation material publishing system according to Claim 1, wherein said public information contains at least a publication period of said presentation materials, and the browsing of said presentation materials by said reader is permitted only in that publication period.

5. (Original) A presentation material publishing system according to Claim 1, wherein said public information contains at least category information of said presentation materials, and said presentation materials are classified according to said category information and are made public.

6. (Original) A presentation material publishing system according to Claim 1, wherein said public information contains browsing permission information of said reader, and only the browsing of said presentation materials by said reader that matches browsing permission conditions is permitted.

7. (Original) A presentation material publishing system according to Claim 1, wherein said presentation material publishing server notifies said presenter of estimate information on the basis of the public information registered by said presenter.

8. (Original) A presentation material publishing system according to Claim 1, wherein said presentation material publishing server performs a credit process of said presenter before the uploading of said presentation materials by said presenter is performed, and when said credit process is not approved, the uploading of said presentation materials by said presenter is not permitted.

9. (Original) A presentation material publishing system according to Claim 8, wherein only when said uploading of said presentation materials is permitted, the uploading target address is notified to said presenter.

10. (Currently Amended) A presentation material publishing server comprising:
a storage device capable of storing presentation materials uploaded from a presenter via a network in such a manner as to be associated with public information; ~~and~~
a browsing permission device having the right to permit the browsing of said presentation materials by a reader which has accessed them via a network; and
membership registration means for enabling the presenter and the reader to register for authorized access to said presentation material publishing server and for authenticating the authority for the presenter and the reader.

11. (Original) A presentation material publishing server according to Claim 10, wherein the uploading of said presentation materials by said presenter is not permitted until the public information is registered from said presenter.

12. (Original) A presentation material publishing server according to Claim 10, wherein the uploading of said presentation materials by said presenter is not permitted until a user registration of a presenter user is registered from said presenter.

13. (Original) A presentation material publishing server according to Claim 10, wherein said public information contains at least a publication period of said presentation materials, and the browsing of said presentation materials by said reader is permitted only in that publication period.

14. (Original) A presentation material publishing server according to Claim 10, wherein said public information contains at least category information of said presentation materials, and said presentation materials are classified according to said category information and are made public.

15. (Original) A presentation material publishing server according to Claim 10, wherein said public information contains browsing permission information of said reader, and only the browsing of said presentation materials by said reader that matches browsing permission conditions is permitted.

16. (Original) A presentation material publishing server according to Claim 10, further comprising an estimate device for notifying said presenter of estimate information on the basis of the public information registered by said presenter.

17. (Original) A presentation material publishing server according to Claim 10, further comprising a credit device for performing a credit process of said presenter before the uploading of said presentation materials by said presenter is performed, and when said credit process is not approved, the uploading of said presentation materials by said presenter is not permitted.

18. (Original) A presentation material publishing server according to Claim 17, further comprising an address notification device for notifying the uploading target address of said presentation materials, and only when said uploading of said presentation materials is permitted, the uploading target address is notified to said presenter.

19. (Original) A presentation material publishing program storage medium by which a computer forms the presentation material publishing server according to Claim 10.

20. (Original) A presentation material publishing program by which a computer forms the presentation material publishing server according to Claim 10.

21. (Currently Amended) A presentation material publishing method comprising:

a step in which a presenter accesses a presentation material publishing server via a network and uploads presentation materials to said presentation material publishing server via said network;

a step of storing said uploaded presentation materials in such a manner as to be associated with public information; ~~and~~

a step of permitting the browsing of the presentation materials by a reader which has accessed said presentation material publishing server via said network; and

a step for enabling the presenter and the reader to register for authorized access to said presentation material publishing server and for authenticating the authority for the presenter and the reader.

22. (Original) A presentation material publishing method according to Claim 21, wherein, in said presentation material publishing server, the uploading of said presentation information by said presenter is not permitted until the public information is registered from said presenter.

23. (Original) A presentation material publishing method according to Claim 21, wherein, in said presentation material publishing server, the uploading of said presentation information by said presenter is not permitted until the user registration of a presenter user is performed from said presenter.

24. (Original) A presentation material publishing method according to Claim 21, wherein said public information contains at least a publication period of said presentation

materials, and the browsing of said presentation materials by said reader is permitted only in that publication period.

25. (Original) A presentation material publishing method according to Claim 21, wherein said public information contains at least category information of said presentation materials, and said presentation materials are classified according to said category information and are made public.

26. (Original) A presentation material publishing method according to Claim 21, wherein said public information contains browsing permission information of said reader, and only the browsing of said presentation materials by said reader that matches browsing permission conditions is permitted.

27. (Original) A presentation material publishing method according to Claim 21, wherein said presentation material publishing server notifies said presenter of estimate information on the basis of the public information registered by said presenter.

28. (Original) A presentation material publishing method according to Claim 21, wherein said presentation material publishing server performs a credit process of said presenter before the uploading of said presentation materials by said presenter is performed, and when said credit process is not approved, the uploading of said presentation materials by said presenter is not permitted.
